Explore whether this will require a regulatory change. Explore alternative to a regulatory change (for example, is it feasible to check these listings ourselves, and how often would we need to do it)? □ Certification on Foreign Corrupt Practices Act: ► Solution: Our current certification that the transaction complies with applicable U.S. Law (1493.50(b) and 1493.90(d) appears to be sufficient. A possible clarification in a notice to participants could be provided.
