Question 2 (continued):

b) Please provide the text used to encourage exporters and, where appropriate, applicants, requesting official export credit support to develop, apply and document appropriate management control systems that combat bribery:	
Australia	Refer response/comments under Question 1b) and additional measures to Question 1.
Austria	A major aim of the Recommendation is to raise the awareness of combating bribery in international business transactions. In this regard, exporters/applicants are encouraged to apply appropriate management control systems to prevent bribery.
Belgium	This text will be on the website very soon. The text is being translated now. « II. CORRUPTION Les efforts des membres de l'OCDE en matière de lutte contre la corruption ont abouti en 2006 à l'adoption d'une nouvelle recommandation. Cette recommandation est le résultat de la révision et du renforcement de l'Action Statement qui était en vigueur pour les assureurs publics de crédits à l'exportation et découle de la Convention anti-corruption de l'OCDE conclue le 17 décembre 1997. Le formulaire de demande d'assurance a été renforcé et la due diligence a été traduite dans une procédure formelle. Ainsi, le formulaire de demande d'assurance informe l'assuré de la législation en vigueur. Celui-ci doit s'engager à respecter cette réglementation par le biais de la déclaration qui fait partie de la procédure de demande d'assurance. D'autre part l'assuré doit déclarer qu'il ne figure pas sur les listes d'exclusion de certaines institutions financières internationales et que lui-même et toute personne agissant pour son compte n'ont fait l'objet de poursuites ou de condamnations pour faits de corruption. Conformément à la procédure de due diligence, l'instructeur a le devoir d'examiner de plus près les demandes d'assurance impliquant des assurés qui ont été exclus pour faits de corruption par une institution financière internationale, qui font l'objet de poursuites ou qui ont été condamnés pour corruption dans le passé. Dans le cas où un assuré a été reconnu coupable de corruption au cours des cinq années précédant la demande, l'instructeur doit vérifier que des mesures correctrices et préventives internes ont été prises avant qu'un nouveau soutien puisse être accordé pour un crédit à l'exportation. L'instructeur vérifiera si l'exportateur/demandeur ne figure pas sur la liste d'éviction pour faits de corruption de la Banque Mondiale. L'instructeur examine tous les dossiers avec la même prudence, en ce compris les dossiers pour compte d'un autre assureur, quel qu'il soit. L'ONDD ne pourra octroyer de soutien pour une transaction s'il existe une preuve crédible de faits de corruption dans l'attribution du contrat d'exportation. Le Comité de direction et/ou le Conseil d'administration doivent rapporter les éléments ayant conduit à refuser une affaire pour preuves crédibles de faits de corruption aux autorités judiciaires. Par ailleurs, l'art. 12.5 de nos conditions générales stipule : « L'assuré est déchu de ses droits et contraint au remboursement de toute indemnité qui lui aurait été versée s'il est condamné par une décision de justice définitive, rendue sur base des dispositions pénales prises pour l'application de la convention OCDE de lutte contre la corruption d'agents publics étrangers dans les transactions internationales, signée à Paris le 17 décembre 1999. Les obligations de l'Office national du ducroire sont suspendues de plein droit en cas de poursuites judiciaires intentées contre l'assuré sur base des dispositions précitées. L'assuré est tenu de déclarer sans délai toute poursuite intentée ou toute condamnation pénale prononcée à son encontre ». »

b) Please provide the text used to encourage exporters and, where appropriate, applicants, requesting official export credit support to develop, apply and document appropriate management control systems that combat bribery:	
Germany	Prevention of bribery The damage caused by bribery not only poses a threat to the economic viability of the individual company but has also repercussions on the reputation of trade and industry as whole. The mutual trust between buyers and suppliers is destroyed. Intransparent and unlawful acts make fair competition impossible. Within this meaning the prevention of bribery is also risk control. In unison with the big German industrial associations such as BDI and BDA, the Federal Government therefore encourages export companies to actively take up the subject and to set up internal mechanisms designed to prevent corruption. Measures to prevent bribery comprise exemplary behaviour of the companies' managers and regular training of the employees in addition to drawing up a code of conduct. When looking for suitable preventive measures, above all the publications of BDI and Transparency International ("Self Audit") may be helpful. Additional, supplementary information on the subject of combating bribery can found under the following Web links. For full information please see our website – in English – at http://www.agaportal.de/en/aga/nachhaltigkeit/korruption.html

Question 2 (continued):

b) Please provide the text used to encourage exporters and, where appropriate, applicants, requesting official export credit support to develop, apply and document appropriate management control systems that combat bribery:	
United States (USDA)	**Foreign Corrupt Practices Act (FCPA) and Other Anti-bribery Measures** Exporters are reminded that U.S. firms and individuals seeking to do business in foreign markets must be familiar with the Foreign Corrupt Practices Act of 1977 (FCPA), 15 U.S.C. §§ 78dd-1, et seq., which, in general, prohibits corrupt payments to foreign officials for the purpose of obtaining or keeping business. The anti-bribery provisions of the FCPA make it unlawful for a U.S. person, and certain foreign issuers of securities, to make a corrupt payment to a foreign official for the purpose of obtaining or retaining business for or with, or directing business to, any person. They also apply to foreign firms and persons who take any act in furtherance of such a corrupt payment while in the United States. Consistent with the FCPA, the Organization for Economic Cooperation and Development (OECD) has brought about anti-bribery recommendations to combat bribery of foreign public officials in international business transactions, which the U.S. Government has agreed to follow in its export credit practices. Congress enacted the FCPA to bring a halt to the bribery of foreign officials and to restore public confidence in the integrity of the American business system. Several firms that paid bribes to foreign officials have been the subject of criminal and civil enforcement actions, resulting in large fines and suspension and debarment from federal contracting, and their employees and officers have gone to jail. To avoid such consequences, many firms have implemented detailed compliance programs intended to prevent and to detect any improper payments by employees and agents. The Commodity Credit Corporation (CCC) reserves the right to require that exporters/applicants disclose, upon demand: (i) the identity of persons acting on their behalf in connection with the transaction, (ii) the amount and purpose of commissions and fees paid, or agreed to be paid, to such persons; and (iii) whether anyone acting on the exporter/applicant's behalf is charged with or has been convicted of any violations of law against bribery. In making certifications to CCC for application for a payment guarantee under GSM 102 as required by 7 C.F.R. 1493.50 and under the Facility Guarantee Program as required by 7 C.F.R. 1493.270 and in submitting an Evidence of Export notice as required by 7 C.F.R. 1493.90, the exporter/applicant is affirming that he/she is in compliance with the FCPA and other Anti-Bribery Measures. Parties doing business with CCC are encouraged to develop, apply and document appropriate controls to combat bribery. More information about the FCPA, is available from the U.S. Department of Justice website, including, in particular, the Layperson's Guide to the FCPA Statute.
