

Corrigendum

A change has been made to one of the figures since the publication of the original version of the report. Please note that the version of the e-book on the iLibrary takes into account the changes below.

Page 31:

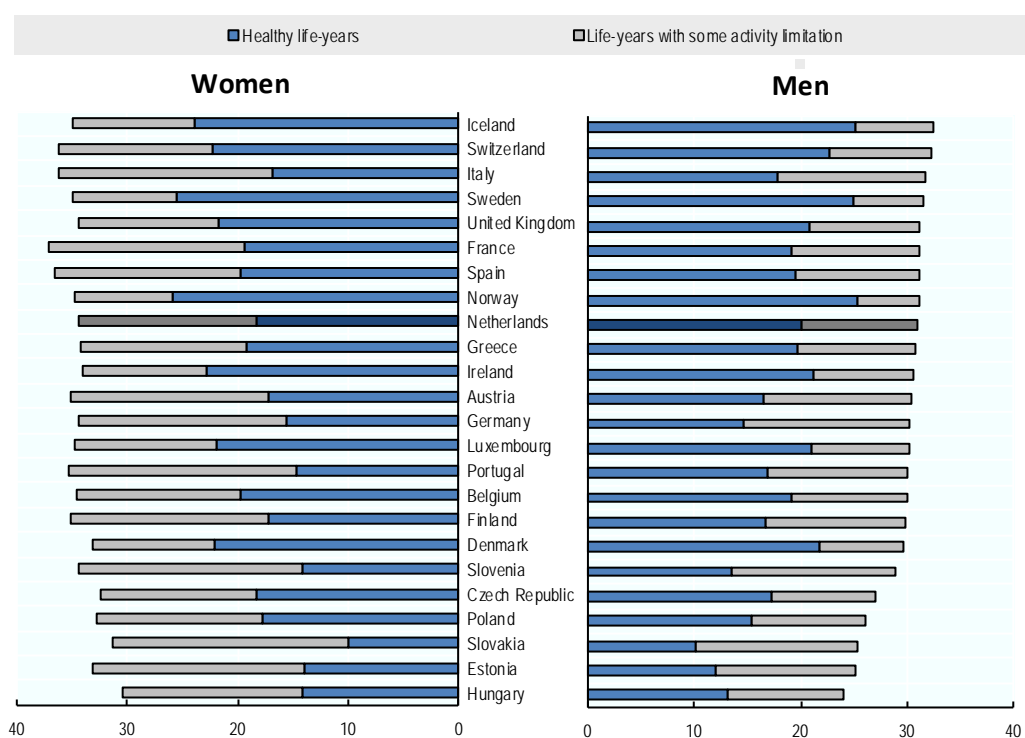

The sentence in the paragraph below Figure 1.2 should read as follows:

The active life expectancy (i.e. the healthy life-years remaining at the age of 50) is about 20 years for both genders (Figure 1.3).

Page 32:

Figure 1.3 has been changed as follows:

Figure 1.3. Active life expectancy at the age of 50, by gender, European countries, 2011
