

## Corrigendum

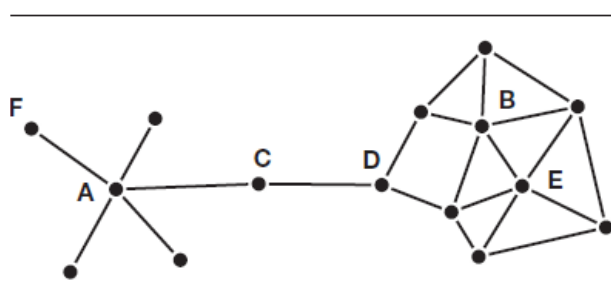

**Page 52:**

*Figure 3.4*

Actor “D” on the far left of figure 3.4 was changed to Actor “F”.

Figure 3.4

Degree, eigenvector, betweenness and closeness centrality

The corresponding sentence on page 52 was modified as follows:

“This calculation assumes that every actor in the network is connected by at least one link, such as in Figure 3.4, where actor ~~D~~ F is particularly far away from the centre of the network and, as a result, has quite weak closeness centrality.”
