Corrigendum

Pages V.1 to V.18:

In the “Non-OECD coal data” section (Part V), in the “World total coal supply and end-use” tables (pages V.5 to V.18), the data in the columns, “Power and heat plants” and “Steel industry” were interchanged for all years. i.e. The data in the “Power and heat plants” column are for the “Steel industry” and vice versa.
