About the OECD

The mission of the Organisation for Economic Co-operation and Development (OECD) is to promote policies that will improve the economic and social well-being of people around the world.

The OECD provides a forum in which governments can work together to share experiences and seek solutions to common problems. We work with governments to understand what drives economic, social and environmental change. We measure productivity and global flows of trade and investment. We analyse and compare data to predict future trends. We set international standards on a wide range of things, from agriculture and tax to the safety of chemicals.

We also look at issues that directly affect everyone's daily life, like how much people pay in taxes and social security, and how much leisure time they can take. We compare how different countries' school systems are readying their young people for modern life, and how different countries' pension systems will look after their citizens in old age.

Drawing on facts and real-life experience, we recommend policies designed to improve the quality of people's lives. We work with business, through the Business and Industry Advisory Committee to the OECD (BIAC), and with labour, through the Trade Union Advisory Committee (TUAC). We have active contacts as well with other civil society organisations. The common thread of our work is a shared commitment to market economies backed by democratic institutions and focused on the wellbeing of all citizens.

About OECD iLibrary

As one of the most comprehensive online resources on the world economy, society, education and environment, the **OECD iLibrary** is a powerful research tool for people working at academic institutions, in the private sector and at governmental or non-governmental organisations.

Users can search and directly access chapters, articles, books, tables and databases. These content items are available in different formats and languages.

OECD iLibrary is a subscription service for institutions providing convenient access to their users via IP authentication and/or username/password. Available as a complete collection, or by subject theme, or individual journal and statistical database, subscriptions are either for "Online", or "Online and Print". "Online" includes access to the current issue and the back catalogue of all editions online.

The archive CD-ROMs for the statistical databases are being replaced by an online archive. "Online and Print" includes a copy of every print publication that is published during the subscribed period.

OECD *iLibrary*

Responsive Design & Suggestive Search

Efficient

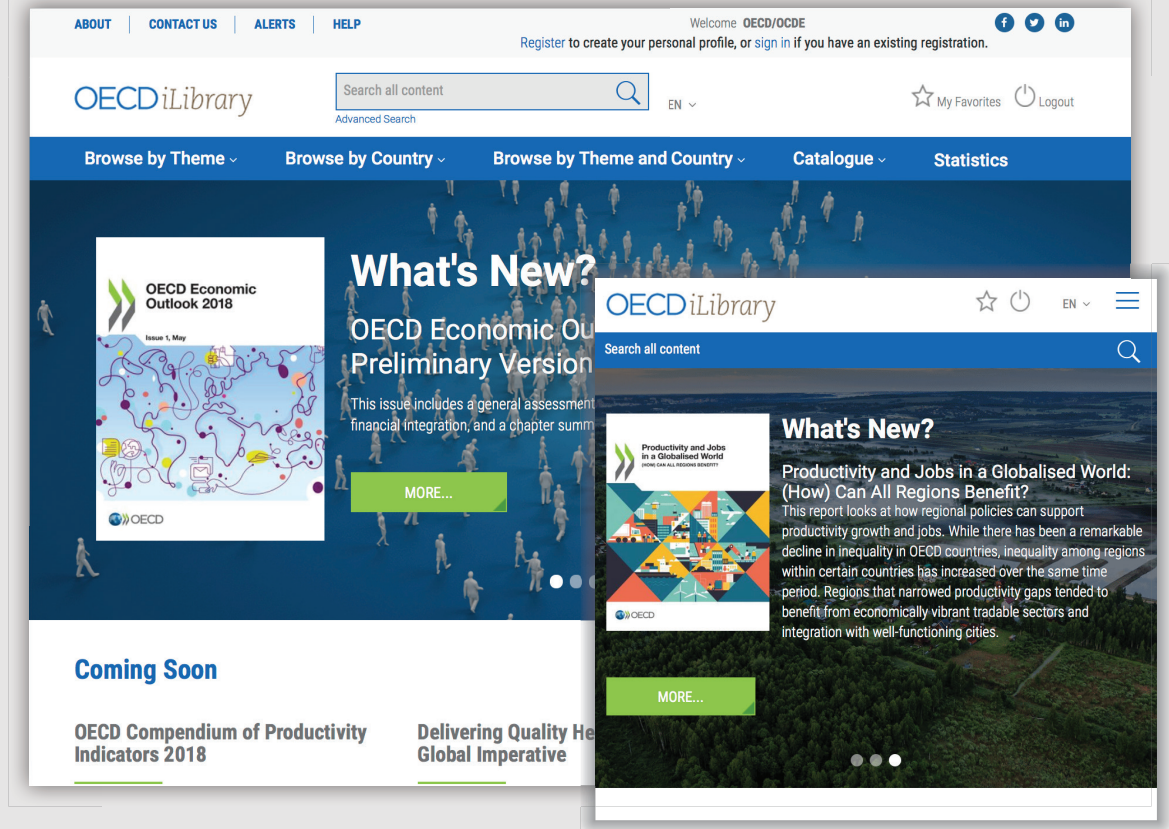

- The intuitive navigation bar allows for search by content type, thematic collection and/or country
- Breadcrumb trails allow users to easily navigate back and forth between different content levels
- When searching by keyword(s), the results can be defined even further by combining filters such as language, publication year, content type, and more...

Reliable

- Every content level has a DOI (Digital Object Identifier), or a static URL, providing users with a dependable reference
- Links to previous editions allow users to view trends over time
- 'My favorites' lets users save a list of content and refer back to it later

Accessible

- Data is available to download in pre-made tables (PDF) and available for customized extractions from OECD.Stat (XLS and CSV)
- The OECD iLibrary citation tool is compatible with popular bibliographic management systems
- With the read option, all users can view and share publications on both desktop and mobile

Explore over 11000
books, 7000 articles and
3500 datasets...

OECD iLibrary Packages

OECD Books and Papers covers all OECD's published (ISBN/ISSN) monographs, journals, statistical annuals and periodicals available online in 17 subject themes. The main texts are accessed as PDFs, whilst related tables are in XLS, PDF or HTML.

OECD Books, Papers and Statistics includes all the above – everything published by OECD.

OECD Statistics provides online access to all OECD's published data, irrespective of format. It includes the dynamic interactive databases, as well as the statistical annuals and periodicals in PDF format, and their related tables in XLS, PDF and HTML. IEA Statistics are not included in this package (see below).

The options for subscribing to OECD content are either "Online" or "Online and Print". "Online" includes access to the current issue and the back catalogue of all editions available online. The archive CD-ROMs of the statistical databases are being replaced by an archive edition accessible online. "Online and Print" includes a copy of every print publication that is published during the subscribed period.

IEA Statistics are available separately due to the highly-focused nature of the content. A subscription to the interactive energy databases is only available as "Online" – print is not an option. This package includes online access to all statistical databases from the International Energy Agency available on OECD iLibrary.

A subscription includes online access for an unlimited number of concurrent users at a single location. Multi-site pricing is available upon request at sales@oecd.org.

IGO Partner iLibraries

Online, users prefer one-stop-shops for their information needs – this is the network effect in action. In response, the OECD has created the iLibrary Partnership, a singular platform for publications, working papers, and statistics from International Organisations. Today, the iLibrary Partnership comprises: OECD, IEA, NEA, ITF, UN, ITU, The Commonwealth, NCM, and WTO. The iLibrary Partnership, a commitment to work together for greater access to knowledge from International Organisations.

IGO Partner iLibraries

The publications of The Commonwealth are available online in a single research repository built on the same platform as OECD iLibrary – www.thecommonwealth-ilibrary.org The Commonwealth is the world's oldest political association of states and publishes around 30 new books per year on different topics such as agriculture and food, development, economics, education, finance and investment, governance, industry and services, social issues migration and health, taxation and trade.

The Nordic co-operation is one of the world's most extensive forms of regional collaboration, involving Denmark, Finland, Iceland, Norway, Sweden, the Faroe Islands, Greenland, and Åland. The publications of the Nordic Co-operation are available online: www.norden-ilibrary.org . Norden titles have a particular focus on climate and environment, sustainable development, health and social welfare, education and research, labour and employment. **This product is not included in the OECD iLibrary subscription.**

The United Nations iLibrary (www.un-ilibrary.org) , launched in early 2016, is the first comprehensive global search, discovery, and viewing source for digital content created by the United Nations. It provides users with a single digital destination for seamlessly accessing the content published by the United Nations Secretariat, and its funds and programs. Every year, around 500 new titles will be added to the United Nations iLibrary. The collection covers topics such as Agriculture Rural Development and Forestry, Children and Youth, Democracy and Governance, Disarmament, Economic and Social Development, Environment, Migration, Trade and Finance, etc. **This product is not included in the OECD iLibrary subscription.**

IGO Partner iLibraries

ITU collects annual ICT data directly from telecommunication/ICT ministries, telecommunication regulatory authorities and national statistics offices to maintain its World Telecommunication/ICT Indicators Database (WTID) , with some of the earliest telecommunication data reaching as far back as 1965, and now with over 200 separate indicators for more recent years on mobile phone and internet usage, pricing, available broadband and traffic. This invaluable data is also presented annually in the form of the ITU Yearbook of Statistics, a compilation of 10 years of key statistics presented by country, while the complete database provides users with a handy tool to run and import queries by year, country and/or indicator in order to further analyze the most authoritative source of data on the evolution of telecommunications, the availability of ICTs in households worldwide, average price breakdowns per country, the usage of ICTs by individuals and much more. **This product is not included in the OECD iLibrary subscription.**

Every year, the World Trade Organization (WTO) publishes around 70 new titles on various trade issues. Some of the topics covered include agriculture and food safety, dispute settlement, government procurement, intellectual property, information technology and e-commerce, trade finance and trade monitoring. These publications are now available online in a single research repository, WTO iLibrary. WTO iLibrary has been developed in partnership with OECD Publishing as part of the iLibrary Partnership. In case of questions about the service, access or subscriptions please email us at: wto-ilibrary@oecd.org. **This product is not included in the OECD iLibrary subscription.**

A subscription to Norden iLibrary, to The Commonwealth iLibrary, to United Nations iLibrary or to ITU iLibrary is **not included** in any OECD iLibrary package.

2019 prices are applicable from Nov 1, 2018
Unless indicated otherwise subscriptions start on the 1st day of any month and are valid for 12 months.

OECD iLibrary Themes

A subscription to an OECD iLibrary theme includes online access to all the books published since 1998 in the subject, as well as related periodicals, annuals, statistical databases and tables. Full access to all available formats is included. In addition, all working papers and policy papers are made available regardless of the subscribed theme. As is the case with the complete OECD iLibrary collection, subscribers can choose “Online” or “Online and Print”. “Online” includes access to the current issue and the back catalogue of all editions available online. The archive CD-ROMs of the statistical databases have been replaced by an archive edition accessible online. “Online and Print” includes a copy of every print publication that is published during the subscribed period.

OECD iLibrary Themes include all relevant books, journals, statistical periodicals and databases

OECD Statistical Packages

In addition to the interactive database edition (DATA), a subscription to an OECD Statistical Package includes the corresponding periodical, available as ready-made tables in three formats – PDF, XLS and Web (HTML). By providing access to all available versions, the statistical packages simplify and enrich the user-experience, whilst also keeping administrative costs to a minimum. For example, a single annual subscription now covers all OECD National Accounts publications together with the databases. “Online” includes access to the current issue and the archive of previous editions. The archive CD-ROMs of the statistical databases have been replaced by an Online Archive Data Service in CSV format, enabling a complete dataset to be downloaded in a single click for quick integration into the statistical software of choice.

IEA Statistical Databases

Today, the IEA is at the heart of global dialogue on energy, providing authoritative analysis through a wide range of publications, including the flagship World Energy Outlook and the IEA Market Reports; data and statistics, such as Key World Energy Statistics and the Monthly Oil Data Service; and a series of training and capacity building workshops, presentations, and resources.

The four main areas of IEA focus are:

Energy Security: Promoting diversity, efficiency, flexibility and reliability for all fuels and energy sources;

Economic Development: Supporting free markets to foster economic growth and eliminate energy poverty;

Environmental Awareness: Analysing policy options to offset the impact of energy production and use on the environment, especially for tackling climate change and air pollution; and

Engagement Worldwide: Working closely with partner countries, especially major emerging economies, to find solutions to shared energy and environmental concerns.

International
Energy Agency

IEA Statistics are available separately due to the highly-focused nature of the content. A subscription to the interactive energy databases is only available as “Online” – print is not an option. This package includes online access to all statistical databases from the International Energy Agency available on OECD iLibrary.

OECD Journals and Statistical Periodicals

The benefits of subscribing to a statistical publication:

- Tables available and downloadable in a range of formats: PDF, XLS and Web (HTML).
- Subscription price is the same as the print, yet includes online access.
- Every publication is divided into chapters and tables, all individually indexed and referenced by country or variable (up to 300 objects per publication).
- Online access to all available back issues.
- Continual access, even after subscription expiry.
- Institution-wide online access via IP authentication and/or username/password.
- Automatic notification when renewal is due.
- Print copy despatched (if subscribed to 'Online and Print') immediately upon publication release.
- Save space and money by subscribing to the 'Online only' version.
