

OECD Trento Centre for Local Development and its Spatial Productivity Lab  
in collaboration with the Autonomous Province of Trento, Italy

# Presentation of the report on *Bringing Trentino's productivity growth back on track*

Annual meeting 2024

1 February 2024 | Trento, Italy (in-person event)

## AGENDA

# ■ The project

## ■ Presentation of the Provincial Coordination for Productivity and Competitiveness in Trentino 2023-2025

The productivity and competitiveness of a region is the main indicator for the long-term prosperity of its residents. Higher regional productivity is related to higher real wages for workers, higher disposable income of households, and lower income inequality between households. High regional productivity may also strengthen the resilience of local economies to economic shocks and disruption, such as from economic recessions or local sectoral shocks.

The Autonomous Province of Trento (Italy) has established a Provincial Coordination for Productivity and Competitiveness through legislation to: a) carry out analysis on the productivity of the province, b) propose policy measures based on this analysis, c) organise discussions among stakeholders and in public, e d) produce an annual report on productivity and competitiveness of the Trentino economy.

The Spatial Productivity Lab at the OECD Trento Centre for Local Development will coordinate the Trentino Spatial Productivity Review and liaise with Scientific partners and local stakeholders for the duration of the project. The three-year project will deliver a report in each year based on new analysis and relevant themes. The reports will be based on analysis and research from the scientific partners and input from local stakeholders.

More information available at <https://oe.cd/SPL-Trentino>

## ■ Information on the event

This event brings together all partners and stakeholders to present the results of the work carried out by the Provincial Coordination for Productivity and Competitiveness in Trentino in 2023, to discuss the main results that emerged and were illustrated in the first report on Trentino's productivity, and to gather comments and suggestions on the issues to be examined in greater depth during 2024.

**To participate, please register through this [online form](#) by 30 January 2024.**

## ■ Venue

Sala Belli, Autonomous Province of Trento, Piazza Dante 15, Trento.

## ■ Language

The meeting will be held in Italian.

## ■ Contacts

OCSE Carlo Menon

## OECD Trento Centre for Local Development

Vicolo San Marco 1, 38122 Trento, Italy  
[cfetrento@oecd.org](mailto:cfetrento@oecd.org) | [www.trento.oecd.org](http://www.trento.oecd.org)

This project of the OECD Trento Centre for Local Development is part of the OECD Centre for Entrepreneurship, SMEs, Regions and Cities activities and supports the OECD Local Employment and Economic Development (LEED) Programme of work.

The Trento Centre uses a holistic "from data to practice" approach to policies for sustainable development to offer local policy analysis, advice and capacity building activities for improved policy implementation for people, places and firms. [www.trento.oecd.org](http://www.trento.oecd.org)

The OECD Centre for Entrepreneurship, SMEs, Regions and Cities provides comparative statistics, analysis and capacity building for local and national actors to work together to unleash the potential of entrepreneurs and small and medium-sized enterprises, promote inclusive and sustainable regions and cities, boost local job creation, and support sound tourism policies.
