

Monitoring and evaluation of the public procurement system - Canada

Public Procurement Principle: **Evaluation**

Procurement Stage: **All phases**

Audience: **Policy makers, Procuring entity**

Description

The Office of the Auditor General of Canada and the Office of the Procurement Ombudsman periodically conduct performance audits and reviews of procurement by the government of Canada. The Office of the Procurement Ombudsman routinely conducts Procurement Practice Reviews in order to assess whether departmental practices support the objectives of fairness, openness, and transparency. PSPC measures the cost of procurement services per CAD 100 of contract value awarded annually by the CPB on behalf of government departments; the overall level of client and supplier satisfaction; and the timeliness of services. It is also developing indicators to measure achievement of socio-economic objectives.
