Ladislav  
Smia

Head of Sustainability Research  
MIROVA - Responsible Investing

Ladislav began his career at PwC in 2007 as a consultant in sustainable development, where he spent 3 years. In 2010, he joined the group as a sustainability analyst, specializing on Energy and Information & Communication Technologies, and gradually took on managerial responsibilities since then.

Ladislav Smia is a graduate of the engineering school “Les Mines de Nancy”. He is also a graduate of the HEC Paris business school, with a Masters in Sustainable Development.
