

Iris ARBEL received a PhD in Behavioural and Management Sciences from the Faculty of Industrial Engineering and Management, Technion - Israel Institute of Technology. Her research focuses on team creativity, aiming to identify and harness creativity within teams to foster innovation. Iris developed several projects aiming to leverage resource-sharing and reflexivity to enhance team learning. Iris served as Director of the Knowledge Center for Innovation at the Technion - Israel Institute of Technology for 7 years. The vision of the Center for Innovation is to “lead the innovation activities in Israel while serving as a provoking factor that impacts research, industry and policy making activities”. The Center for Innovation encourages initiatives and innovation programmes, and supports researchers, entrepreneurs, and policy makers. Iris is an innovation management expert, lecturer at the Technion and Bar-Ilan University, and consultant on SME innovation.
