## DIRECTORATE FOR FINANCIAL AND ENTERPRISE AFFAIRS INSURANCE AND PRIVATE PENSIONS COMMITTEE

**OECD GLOBAL INSURANCE STATISTICS: GENERAL INSTRUCTIONS** 

For further information, please contact Mr. Romain Despalins [Tel: +33 1 45 24 18 26; Email: romain.despalins@oecd.org].

JT03494385

#### Introduction

The OECD's Insurance and Private Pensions Committee has been collected insurance statistics for decades, and has expanded the reach of its statistical exercise beyond the OECD area. The OECD Global Insurance Statistics project compiles an extensive range of statistics and appropriate indicators, permitting an improved assessment of the insurance sector's financial strength, stability, profitability and solvency, both for direct insurers and reinsurers.

These insurance statistics are collected into an Excel questionnaire and a qualitative questionnaire. Delegates are kindly invited to complete the Excel questionnaire with 2021 data, including preliminary data and estimates. If there are any revisions to be made to the 2020 data submitted last year, please submit a separate copy of this questionnaire with the revised data.

Delegates are kindly requested to:

- Complete the whole Excel questionnaire (See Annex I for notes and definitions and Annex II on technical instructions to filling in the Excel questionnaire).
- Describe developments and trends in their insurance market in 2021 and the first quarter of 2022 in the qualitative questionnaire (DAF/AS/WD(2022)3); and,
- Complete / Revise the Methodological notes for their country.

In order to enable a timely preparation of the twelfth edition of the OECD's *Global Insurance Market Trends* report, Delegates are kindly invited to return the three files (Excel questionnaire, qualitative questionnaire and methodological notes) by **Thursday 9 June 2022**.

## Sections of the Excel questionnaire

The Excel questionnaire is structured as follows:

- **Section 1** deals with general information on the reporting country. For the definitions, please refer to pages 24-32.
- Section 2 deals with Business Written in the Reporting Country and should include all business written in your country, whether in respect of domestic or foreign (world-wide) risks, and analysed according to the definitions that can be found in pages 24-32. This section also covers a question which breaks down life insurance premiums between single premiums and periodical premiums on a net and gross basis. It should include the life business of composite enterprises (if applicable).
- Section 3.1 specifically deals with Business Written in the reporting Country on risks situated outside the reporting country (= foreign risks).
- Section 3.2, on the other hand, breaks down business between domestic and foreign risks on a net premium basis and is an amplification of the final ("Net Written Premiums") column of Section 2, with totals corresponding accordingly.
- Section 4.1 covers Business Written Abroad by branches, agencies and subsidiaries established abroad of domestic undertakings and should include all business written outside your country by these entities (in both OECD and non-OECD countries).
- Sections 4.2 and 4.3 cover Business Written Abroad by Branches and Agencies by country. Figures shall comprise life and non-life business of composite enterprises respectively when available.
- Section 5.1 covers the breakdown of premiums of life insurance by type of contracts: unit-linked, annuities and other life insurance contracts. It should include the life business of composite enterprises (if applicable). Data on pension insurance contracts are also collected separately.
- Section 5.2 deals with Premiums written by classes of Non-Life Insurance for the business written in the Reporting Country. Those countries having difficulties in breaking down "reinsurance accepted" by classes may use the "(9) Treaty Reinsurance" row. It should include the non-life business of composite enterprises (if applicable).
- Section 6.1 is about investments by direct insurers. It covers the breakdown of investments according to the type of enterprises. Assets linked to unit-linked products sold to policyholders should be included and reported under "Assets held for index-linked and unit-linked contracts".
- Section 6.2 is about investments by direct insurers and covers the breakdown of investments by the set of all companies based on their geographical destinations (investments in the reporting country or investments abroad). For "Composite", please provide, where possible, a breakdown of outstanding investments between life and non-life business. Where assets cannot be allocated to life or non-life business, please include them under composite (i.e. column named "3. Total").
- Section 6.3 is about investments of reinsurers. It covers the breakdown of investments according to the categories of reinsurers.
- Section 6.4 is about investments of reinsurers. It covers the breakdown of investments by the set of all companies based on their geographical

destinations (investments in the reporting country or investments abroad). For "Composite", please provide, where possible, a breakdown of outstanding investments between life and non-life business. Where assets cannot be allocated to life or non-life business, please include them under composite (i.e. column named "3. Total").

- **Sections 7 to 9** relate respectively to <u>gross claims payments</u>, <u>gross operating</u> expenses, and commissions.
- Section 10.1 collects information pertaining to balance sheet and income statement variables of direct insurers. For items "Gross claims paid", "Outstanding claims provision (changes)", "Gross operating expenses" and "Commissions", please provide a breakdown for composite enterprises between life and non-life business if available: this breakdown permits the calculation of the loss, expense, and combined ratios.
- Section 10.2 collects information pertaining to balance sheet and income statement variables of <u>reinsurers</u>. For items "Gross claims paid", "Outstanding claims provision (changes)", "Gross operating expenses" and "Commissions", please provide a breakdown for composite enterprises between life and nonlife business if available: this breakdown permits the calculation of the loss, expense, and combined ratios.

In **Sections 1 and 2**, figures provided for the number of undertakings and for insurance premiums should include all insurance undertakings licensed or authorised in your country, including professional reinsurers, whether or not these are controlled, but excluding any statutory system of social security administered by the State.

In all Sections of the questionnaire, the following definitions should be applied:

- <u>Domestic Undertakings</u> mean those undertakings in the Reporting Country incorporated under national law, together with those undertakings which are unincorporated, but excluding the branches and agencies of foreign undertakings.
- <u>Foreign-Controlled Undertakings</u> mean those domestic undertakings (as defined above) controlled by foreign interests, such "control" being defined according to national law for the purposes of this return. Please specify the exact coverage and your national definition of this category in the methodological notes.
- <u>Foreign Undertakings</u> mean undertakings incorporated outside the reporting country.

Figures on the number of undertakings and on insurance premiums are requested for all Domestic Undertakings (showing separately the element in the totals made up by locally incorporated Foreign Controlled Undertakings) and for local branches and agencies of Foreign Undertakings. If this split is not available, please give the total figure only.

Life and Non-Life categories should follow the definitions used in national law. However, the premiums for <u>accident and sickness insurances underwritten by Life companies should be included in Non-Life figures</u>.

Delegates are encouraged to provide estimates or preliminary data where figures are unavailable. Liaison with national associations could be helpful in this respect.

Delegates are invited, in the methodological notes, to provide details of where national definitions deviate from those found in Annex I.

## Delegates should complete the questionnaire using the following conventional signs where appropriate:

- Zero values should be indicated by "0". The cells should not be left blank.
- Data that is not available, or for which a breakdown is not available should be filled in as ND (Data Not available); the cells should not be left blank.
- Data that is not applicable should be filled in as NA;
- Data that is confidential should be filled in as C;
- Only average net investment return (Sections 6.1 and 6.3) and the supervisory solvency target ratio for capital (Sections 10.1 and 10.2) should be provided in percent.

#### PLEASE REFER TO NOTES AND DEFINITIONS

Please indicate the calculation method for the solvency requirement and comments (if any) on the computation of available capital:
Please describe what gross operating expenses include:
Other comments:

#### Annex I: Notes and definitions

#### Section 1

NUMBER OF INSURANCE UNDERTAKINGS Number of insurance undertakings operating in your country. Figures should include all insurance undertakings licensed or authorised in your country, including professional reinsurers, whether or not these are controlled, but excluding any statutory system of social security administered by the State.

INSURANCE EMPLOYEES

i) Insurance Undertakings

Give the number of staff (full-time or part-time) employed in the

insurance industry of your country.

ii) Intermediaries

Give the number of persons (brokers or agents and their staffs) excluding intermediaries who may sell insurance but are not directly involved in the insurance industry (e.g. bank managers, solicitors,

garage owners) of those included under i) above.

#### **Section 2 - 5.2**

YEAR The calendar year to which the figures refer.

UNITS Units of national currency in which figures are given. Premiums

should normally be shown in millions of the national currency unit.

LIFE / NON-LIFE Life and Non-Life categories should follow the definitions used in

national law.

COMPOSITE A composite company is an insurance company which deals with

both life and non-life business.

DOMESTIC COMPANIES Domestic companies refer to companies incorporated under national

law, together with those companies in the reporting country which are unincorporated, but excluding the branches and agencies of

foreign companies.

FOREIGN-CONTROLLED

**COMPANIES** 

Refer to companies controlled by foreign interests, such "control"

being defined according to national law.

FOREIGN COMPANIES Foreign companies refer to companies incorporated outside the

reporting country.

Figures on insurance premiums are requested for all Domestic Undertakings (showing separately the element in the totals made up by locally incorporated Foreign-Controlled Undertakings) and for local branches and agencies of Foreign Undertakings. If this split is not available, please give the total figure only.

GROSS PREMIUMS Gross premiums are total premiums written, excluding any premium

taxes or other charges, but before deduction of commissions or reinsurance outwards. It is acknowledged that the inclusion of reinsurance will mean that there is some element of double-counting

in the figures provided.

**DIRECT BUSINESS** Includes all direct business.

REINSURANCE ACCEPTED

Includes all reinsurance business accepted. Facultative reinsurance may be included under "Direct business" or "Reinsurance Accepted"

according to practice in the reporting country.

**TOTAL** This is the total of the two previous columns. The figure should be

given even if it has not been possible to make the split between

Direct and Reinsurance business.

PREMIUMS CEDED Includes all premiums (reinsurance and retrocession) ceded.

**NET WRITTEN PREMIUMS** 

Normally "Net Written Premiums" should be equal to total "Gross Premiums" less "Premiums Ceded". If there are special problems in your country which prevent this relationship from holding given the definitions provided, then appropriate compensatory element should be included under "Premiums Ceded" so that it does not hold in the figures supplied.

"Gross Premiums" and "Premiums Ceded" should be given where available. "Net Written Premiums", however, is very important information and should be given even if an estimate has to be made.

"Net Written Premiums" are total retention in the reporting country. There should be no doublecounting in these figures, even though double-counting may exist in the gross figures.

For certain countries, figures provided for Life business will not necessarily take reinsurance into account.

Figures provided for insurance premiums should include all insurance undertakings licensed or authorized in your country, including professional reinsurers, whether or not these are controlled, but excluding any statutory system of social security administered by the State.

#### Section 3.2

DOMESTIC RISKS Includes all business written in the reporting country on domestic

risks.

**FOREIGN RISKS** Includes all business written in the reporting country situated outside

the reporting country (does not include business written outside the

reporting country by national undertakings).

**TOTAL** Shows total of domestic and foreign business. This total should

correspond to the final column in Section 2.

#### Section 4.1

Please include all (OECD and other countries) business written by establishments abroad of domestic undertakings. In the absence of precise figures, please give estimates whenever possible.

#### Section 4.2

Each country should not fill the row of its own country.

The final row (TOTAL) should correspond to the first row (Branches and Agencies: Life) in Section 4.1 plus the fourth row (Branches and Agencies: Composite/Life).

#### Section 4.3

Each country should not fill the row of its own country.

The final row (TOTAL) should correspond to the second row (Branches and Agencies: Non-Life) in Section 4.1 plus the fifth row (Branches and Agencies: Composite/Non-Life).

#### Section 5.1

ANNUITIES	An annuity is a	an amount of n	noney paid to	somebody at a regular
/ \\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \	7 till dillimity lo t	ari arrioarit or r	nono, para to	comobody at a regular

interval (e.g. monthly, yearly). It is an agreement or a contract for one person or organisation (generally an insurance company) to pay another (the annuitant) a stream or series of payments (annuity payments). Payments can start immediately or in the

future. They can be fixed or variable.

UNIT-LINKED Also called Unit Linked Insurance Plan (ULIP), a type of insurance

vehicle in which the policyholder purchases units in investment funds at their net asset values and can choose from a range of different funds to suit his/her attitude to risk. Investment funds are invested in a mix of assets (such as stock, bonds or mutual funds, depending upon the list of qualified investments). Depending on the performance of the fund chosen, the policyholder may achieve

gains or losses on his/her investments.

PENSION CONTRACTS An insurance contract that specifies pension plan contributions to

an insurance undertaking in exchange for which the pension plan benefits will be paid when the members reach a specified

retirement age or on earlier exit of members from the plan.

#### Section 5.2

TREATY REINSURANCE Optional row, only for those countries having difficulties in breaking

down reinsurance accepted by classes.

TOTAL NON-LIFE INSURANCE

This row should correspond to the total of non-life premiums shown in Section 2.

#### **Sections 6.1-6.4**

Investment data should <u>include</u> assets linked to unit-linked products sold to policyholders. Please select the valuation method of investment assets in your country (historic valuation, market valuation, etc.).

**CASH AND DEPOSITS** 

Cash are current account and other short-term savings in the financial system. Deposits are funds "placed on deposit" with a financial institution and do not include certificates of deposit or other short-term securities.

BILLS AND BONDS ISSUED BY PUBLIC AND PRIVATE SECTOR Bills and bonds issued or guaranteed by central and local governments and the National Debt offices as well as securities/bills issued by companies, including financial and non-financial enterprises. This category should also include certificates of deposits.

Of which: bills and bonds issued by public administration

Bills and bonds issued or guaranteed by central and local governments and the National Debt Offices (Long term and short term).

Of which: bonds issued by the private sector

Securities/bills issued by companies, financial and non-financial enterprises. Bonds issued by banks and other financial or corporate institutions. This category should also include certificates of deposits.

**LOANS** 

Consumer credit, bank loans, mortgage loans, financial leases and other loans, including commercial bills, hire purchase and other instalment credits, and all other types of loans not bound to bearer bonds.

**EQUITY** 

All forms of shares in the capital of enterprises, quoted and unlisted shares and other equities. It does not include investments via private equity funds.

Of which: listed equity

All forms of shares in the capital of enterprises quoted on a public exchange.

Of which: unlisted equity

Equity capital that is not quoted on a public exchange. It does not include investments via private equity funds.

LAND AND BUILDINGS

Real estate investment involving direct ownership of land and buildings. This category shall not include investment in real estate funds (both listed and unlisted, such as REITs).

COLLECTIVE INVESTMENT SCHEMES

Comprise both retail and institutional funds (open-end and closed end) in which investors pool their funds to invest in a diversified

#### 28 | DAF/AS/WD(2022)3/ADD

(CIS) portfolio of securities. It includes mutual funds, investment funds,

UCITS-like funds, exchange-traded funds (ETFs), and specialised funds such as real estate funds (e.g. REITs), money market funds, debt funds. CIS funds may be listed or unlisted. Hedge funds and

private equity funds should not be included in this category.

Of which: cash and

deposits

Part of Collective Investment Schemes investments allocated to

cash and deposits.

bills and bonds.

Of which: equity Part of Collective Investment Schemes investments allocated to

equity.

Of which: land and

buildings

Part of Collective Investment Schemes investments allocated to

land and buildings. Includes real estate funds.

Of which: other Part of Collective Investment Schemes investments not included in

the above categories.

HEDGE FUNDS Managed pool of capital which is allowed to employ investing

strategies unavailable to retail investors, including selling short,

leverage, program trading, swaps, arbitrage, and derivatives.

STRUCTURED PRODUCTS

Structured products are investment instruments that combine at least one derivative with traditional assets such as equity and fixed-income securities. The value of the derivative may depend on one or several underlying assets. Furthermore, unlike a portfolio with the same constituents, the structured product is usually wrapped in a legally compliant, ready-to-invest format and in this sense it is a packaged portfolio. It should include both asset-backed securities (including infrastructure bonds/debt) and mortgage-backed

securities.

ASSETS HELD FOR INDEX-LINKED AND LINIT-LINKED

UNIT-LINKED CONTRACTS

Assets held for insurance products where policyholder bears the

risk (unit-linked).

OTHER INVESTMENTS Investment in other assets not included in the above categories.

TOTAL INVESTMENTS All forms of investment.

**NET INVESTMENT** 

INCOME

Total of interest, dividends, and other earnings derived from the insurance undertaking's invested assets minus the expenses

associated with these investments, and including realised and

unrealised (but recognised) gains and losses.

AVERAGE NOMINAL NET Total return, including realised and unrealised (but recognised)

(%)

gains and losses plus income, after subtracting any investment management costs. The return should be given in nominal terms (before subtracting inflation) and in percent.

### **Sections 10.1-10.2**

TARGET SOLVENCY

**RATIO** 

The solvency ratio is the ratio between available capital and required capital, or available solvency margin and required solvency margin. (Please provide also explanations about the calculation method.) The solvency target ratio is the ratio of available and required capital

at which supervisory intervention is likely to be triggered.

LOSS RATIO (Gross claims paid + Outstanding claims provision (changes)) /

Gross written premiums

EXPENSE RATIO (Gross operating expenses + Commissions) / Gross written

premiums

COMBINED RATIO Loss ratio + Expense ratio

GROSS CLAIMS PAID Gross claims payments, covering all gross payments on claims

made during the financial year, are to be used in the calculation of

gross claims incurred.

**GROSS OPERATING** 

**EXPENSES** 

Gross operating expenses should normally mean the sum of acquisition costs, change in deferred acquisition costs and

administrative expenses.

SHAREHOLDER EQUITY Shareholder equity represents the net worth of a company after

deducting all liabilities.

NET INCOME

Net income is the profit, or total earnings, recorded by a company.

#### Definitions of classes of non-life insurance

<u>CLASSES</u> <u>DEFINITIONS</u>

1. MOTOR VEHICLE LAND VEHICLES (other than railway rolling stock)
