## Introduction

The final report of BEPS Action 14: «Making Dispute Resolution Mechanisms More Effective» identified a number of best practices related to the three general objectives of the Action 14 Minimum Standard.

Paragraph 9 of the Terms of Reference to monitor and review the implementing of the BEPS Action 14 Minimum Standard to make dispute resolution mechanisms more effective<sup>1</sup> stipulates that:

*The best practices are not part of the minimum standard and whether or not a jurisdiction has implemented the best practices will not be peer reviewed or monitored, nor will it affect the assessment of the assessed jurisdiction. Jurisdictions are free, however, to identify best practices they have adopted.*

Liechtenstein has provided information and requested feedback by peers on how it has adopted best practices. In that regard, the FTA MAP Forum agreed on an optional best practices feedback form which peers have used to provide feedback on Liechtenstein's adoption of the best practices.

This document contains a general overview of the adoption of best practices and comments by peers on the adoption of these best practices.

---

<sup>1</sup> Terms of reference to monitor and review the implementing of the BEPS Action 14 Minimum Standard to make dispute resolution mechanisms more effective ([www.oecd.org/tax/beps/beps-action-14-on-more-effective-dispute-resolution-peer-review-documents.pdf](http://www.oecd.org/tax/beps/beps-action-14-on-more-effective-dispute-resolution-peer-review-documents.pdf)).

## *Part A*

### Preventing Disputes

#### [BP.1] Implement bilateral APA programmes

Jurisdictions should implement bilateral APA programmes.

1. APAs concluded bilaterally between competent authorities provide an increased level of certainty in both jurisdictions, lessen the likelihood of double taxation and may proactively prevent transfer pricing disputes.
2. Liechtenstein has not implemented bilateral APA programs. However, the Fiscal Authority of Liechtenstein is currently considering implementing a bilateral APA programme. While there is not yet a formal APA programme in place, the Fiscal Authority of Liechtenstein is authorised to enter into bilateral APAs upon request of the taxpayer or upon request of the competent authority of the other contracting state.
3. Peers did not provide input relating to this particular best practice.

#### [BP.2] Publish mutual agreements of a general nature

Jurisdictions should have appropriate procedures in place to publish agreements reached by competent authorities on difficulties or doubts arising as to the interpretation or application of their tax treaties in appropriate cases.

4. Agreements reached by competent authorities to resolve difficulties or doubts arising as to the interpretation or application of their tax treaties in relation to issues of a general nature which concern, or may concern, a category of taxpayers, reflect the competent authorities' mutual understanding of the meaning of the convention and its terms. As such agreements provide information that might be useful to prevent difficulties or doubts in the interpretation or application of tax treaty provisions, publication of these agreements is valuable.
5. Liechtenstein publishes agreements reached in 2016 and in subsequent years on difficulties or doubts arising as to the interpretation or application of their tax treaties by the competent authorities. These publications are published in the original language and can be found on the webpage of the Liechtenstein Fiscal Authority.<sup>2</sup>
6. Peers did not provide input relating to this particular best practice.

<sup>2</sup> <http://www.llv.li/files/stv/int-uebersicht-dba-tiea-engl.pdf>. (Accessed: 27 August 2017).

**[BP.3] Provide guidance on APAs**

Jurisdictions' published MAP guidance should provide guidance on APAs.

7. Guidance on a jurisdiction's APA programme facilitates the use of that programme and creates awareness for taxpayers on how the APA process functions. As APAs may also prevent future disputes from arising, including information on APAs in a jurisdiction's MAP guidance is relevant.
8. There is no guidance on APAs as Liechtenstein has not yet implemented a bilateral APA programme.
9. Peers did not provide input relating to this particular best practice.

**[BP.4] Develop "global awareness" of the audit/examination functions**

Jurisdictions should develop the "global awareness" of the audit/examination functions involved in international matters through the delivery of the Forum on Tax Administration's "Global Awareness Training Module" to appropriate personnel.

10. Making audit/examination function of tax administrations that are involved in international matters aware of: (i) the potential for creating double taxation, (ii) the impact of a proposed adjustment on the tax base of one or more jurisdictions and (iii) the process and principles by which competing juridical claims are reconciled by competent authorities, may be useful to prevent disputes from arising. Using the Global Awareness Training Module developed by the Forum on Tax Administration (FTA) can be helpful in this respect.
11. Training is provided to Liechtenstein's officials involved in the auditing and examination of taxpayers to ensure that any assessments made by them are in accordance with the provisions of its tax treaties. Liechtenstein indicated that internal trainings are provided by members of the International Division on a regular basis.
12. Peers did not provide input relating to this particular best practice.

## *Part B*

### **Availability and Access to MAP**

#### **[BP.5] Implement appropriate administrative measures to facilitate recourse to MAP**

Jurisdictions should implement appropriate administrative measures to facilitate recourse to the MAP to resolve treaty-related disputes, recognising the general principle that the choice of remedies should remain with the taxpayer.

13. Under Article 25(1) of the OECD Model Tax Convention, the mutual agreement procedure is a dispute settlement procedure in annex to domestic available remedies and not a substitute for such remedies. Reference is made to inter alia paragraph 7 of the Commentary to Article 25 of the OECD Model Tax Convention, which specifies that the right to submit a MAP request is available to taxpayers *without depriving them of the ordinary legal remedies available*. Facilitating recourse to the MAP through appropriate administrative measures, under the general principle that the choice of remedies remains with taxpayers, enables them to effectively resort to such dispute settlement procedure.

14. No fees are charged to taxpayers for a MAP request. Taxpayers are in Liechtenstein allowed to request MAP assistance and seek to resolve the same dispute via domestically available judicial and administrative remedies. These requests can be made regardless of whether the issue under dispute has already been decided via domestically available judicial and administrative remedies.

15. As mentioned in BP.10 Liechtenstein publishes information on the relationship between the MAP and domestic law administrative and judicial remedies. Sections 3.1.1 and 3.1.6 of Liechtenstein's MAP guidance provides information on the relationship between MAP and domestic law administrative and judicial remedies that are publicly available.

16. Peers did not provide input relating to this particular best practice.

#### **[BP.6] Provide access to MAP for bona fide taxpayer-initiated foreign adjustments**

Jurisdictions' published MAP guidance should provide that taxpayers will be allowed access to the MAP so that the competent authorities may resolve through consultation the double taxation that can arise in the case of bona fide taxpayer-initiated foreign adjustments.

17. A taxpayer-initiated foreign adjustment is considered bona fide where it reflects the good faith effort of the taxpayer to report correctly, timely and properly the adjusted taxable

income from a controlled transaction or the profits attributable to a permanent establishment with a view to reflect an arm's length result, and where the taxpayer has otherwise timely and properly fulfilled all of its obligations related to such taxable income or profits under the laws of the treaty partners. As such taxpayer-initiated foreign adjustments may lead to cases of double taxation, it is relevant that there is access to the MAP for resolving these cases. Furthermore, specifying whether there is access to the MAP for these adjustments in a jurisdiction's MAP guidance provides additional clarity.

18. Liechtenstein provides guidance for bona fide taxpayer-initiated foreign adjustments. Liechtenstein indicates in its MAP guidance that access to MAP would be granted in cases where double taxation results from an adjustment made by a taxpayer himself in good faith to a previously submitted tax return, when the adjustment made was related to the attribution of permanent establishment profits or transfer prices.

19. Peers did not provide input relating to this particular best practice

#### **[BP.7] Provide guidance on multilateral MAPs**

Jurisdictions' published MAP guidance should provide guidance on multilateral MAPs.

20. In recent years, globalisation has created unique challenges for existing tax treaty dispute resolution mechanisms. Whilst the mutual agreement procedure provided for in Article 25 of the OECD Model Tax Convention has traditionally focused on the resolution of bilateral disputes, phenomena such as the adoption of regional and global value chains as well as the accelerated integration of national economies and markets have emphasised the need for effective mechanisms to resolve multi-jurisdictional tax disputes. In that regard, it is for clarity purposes relevant that jurisdiction's MAP guidance includes information on availability of and access to multilateral MAPs.

21. Liechtenstein's MAP guidance does not contain information on multilateral MAPs.

22. Peers did not provide input relating to this particular best practice.

#### **[BP.8] Provide for suspension of collection procedures for pending MAP cases**

Jurisdictions should take appropriate measures to provide for a suspension of collections procedures during the period a MAP case is pending. Such a suspension of collections should be available, at a minimum, under the same conditions as apply to a person pursuing a domestic administrative or judicial remedy.

23. If, following an adjustment taxpayers immediately have to pay the tax due, whereas the same amount was already paid to the tax administration of the other jurisdiction involved, double taxation will in fact occur. As taxpayers may then face significant cash-flow issues, at least for the period the MAP case is pending, it is relevant that jurisdictions provide for suspension of collection procedures for this period under at least the same conditions as available for domestic remedies.

24. Liechtenstein does not provide for suspension of collection procedures during the period a MAP is pending.
25. Peers did not provide input relating to this particular best practice.

## *Part C*

### Resolution of MAP Cases

#### **[BP.9] Permit taxpayers to request multi-year resolution of recurring issues through the MAP**

Jurisdictions should implement appropriate procedures to permit, in certain cases and after an initial tax assessment, requests made by taxpayer which are within the time period provided for in the tax treaty for the multi-year resolution through the MAP of recurring issues with respect to filed tax years, where the relevant facts and circumstances are the same and subject to the verification of such facts and circumstances on audit.

26. In certain cases, a MAP request with respect to a specific adjustment to income may present recurring issues that may be relevant in previous or subsequent tax years. Allowing taxpayers to submit requests for the multi-year resolution through MAP with respect to such recurring issues, where the relevant facts and circumstances are the same, may help avoid duplicative MAP requests and facilitate a more efficient use of competent authority resources.
27. In Liechtenstein, taxpayers are allowed to request multi-year resolution of recurring issues through the MAP. However, Liechtenstein does not indicate in its MAP guidance that multi-year resolution of recurring issues through MAP would be granted in this type of cases.
28. Peers did not provide input relating to this particular best practice.

#### **[BP.10] Publish explanation of the relationship between the MAP and domestic remedies**

Jurisdictions should publish an explanation of the relationship between the MAP and domestic law administrative and judicial remedies.

29. As mentioned under BP. 5, taxpayers are pursuant to Article 25(1) of the OECD Model Tax Convention allowed to submit a MAP request irrespective of available domestic remedies. This, however, does not further specify how to proceed if both available remedies are initiated and the case is dealt with in the bilateral phase of the MAP. Publicly available guidance on the relationship between the MAP and domestic remedies for taxpayers and provides clarity to taxpayers as well as treaty partners.
30. Liechtenstein has included in its domestic guidelines and procedures an explanation addressing the relationship between the MAP and domestic law administrative and judicial remedies. Liechtenstein published an updated general guidance on the MAP procedure in

March 2017. Sections 3.1.1 and 3.1.6 of Liechtenstein’s general MAP guidance state that in Liechtenstein, mutual agreement procedures can, in general, be requested irrespective of the remedies provided by domestic or foreign law and that the fact that a Liechtenstein court has rendered judgement in a case covered in a MAP request does not per se prevent a mutual agreement procedure from being initiated.

31. Peers did not provide input relating to this particular best practice.

**[BP.11] Provide guidance on consideration of interest and penalties in MAP**

Jurisdictions’ published MAP guidance should provide guidance on the consideration of interest and penalties in the mutual agreement procedure.

32. As interest and penalties may concern substantial amounts, providing clarity in a jurisdiction’s MAP guidance on whether interest and penalties are in the scope of the MAP is relevant to ensure that a taxpayer is well-informed on this issue.

33. Liechtenstein indicated that interest or penalties resulting from adjustments made pursuant to a MAP agreement are waived or dealt with as part of the MAP procedure depending on the specific case. Furthermore, Liechtenstein as a matter of principle is prepared to include interest or penalties resulting from adjustments made pursuant to a MAP agreement as part of the MAP procedure. However, Liechtenstein’s MAP guidance does not include guidance on the consideration of interest and penalties in the MAP.

34. Peers did not provide input relating to this particular best practice.

**[BP.12] Include Article 9(2) of the OECD Model Tax Convention in tax treaties**

Jurisdictions should include paragraph 2 of Article 9 of the OECD Model Tax Convention in their tax treaties.

35. Article 9(2) of the OECD Model Tax Convention allows competent authorities to make a corresponding adjustment to unilaterally eliminate double taxation arising from primary adjustments. Including this provision in tax treaties provides taxpayers the possibility to obtain the elimination of such double taxation via a unilateral corresponding adjustment.

36. The analysis of the 17 tax treaties Liechtenstein has entered into with respect to the inclusion of Article 9(2) of the OECD Model Tax Convention is provided below.

37. Out of the 17 tax treaties Liechtenstein has entered into, 16 contain a provision equivalent to Article 9(2) of the OECD Model Tax Convention requiring their competent authorities to make a correlative adjustment in case a transfer pricing adjustment is made by the treaty partner.

38. Peers did not provide input relating to this particular best practice.

## *Part D*

### **Implementation of MAP Agreements**

39. There are no best practices for Part D.
