What is this questionnaire about?

<The student who brought this questionnaire home> was selected to participate in the Programme for International Student Assessment (PISA), a research study which mainly focuses on the reading literacy of students who are 15 years old, but which also includes an assessment of mathematics and science. The study is organised by the Organisation for Economic Co-operation and Development (OECD) and it surveys students from about 80 different countries.

In the PISA study, students are asked to answer questions concerning scientific, mathematical and reading literacy, as well as global competence, and to provide information on their background, beliefs and opinions on issues that generally relate to schooling and their careers. As part of the study, we are also surveying students' parents on a number of similar topics including:

- Information about the student and the family
- Your child's school
- Your child's educational pathway
- Background information

The information you provide will be extremely valuable in building up a picture of how literacy develops in students and what influences its development.

Who should complete this questionnaire?

This questionnaire should be completed by a parent (or jointly by both parents) or other <primary caregiver> of the student. To make the wording of the questions simple, <the student who brought this questionnaire home> is often referred to as 'your child'.

We ask you to respond to all the questions you feel comfortable answering. There are no right or wrong answers and we assure you that your responses to this questionnaire will be kept confidential.

More information on the PISA study can be found on the Internet at
<http://www.pisa.oecd.org/>
