

PISA-D out-of-school assessment next steps: three options

1. A ***stand-alone*** international option as part of a future PISA cycle – for experienced PISA participants with low rate of coverage
2. An international option as part of a future PISA cycle ***linked*** to a household survey – for experienced PISA participants with low rate of coverage

Options 1 and 2: Potential countries for out-of-school assessments - PISA participants with low coverage index 3 values

- Azerbaijan (Baku)
- Brazil
- Bulgaria
- Colombia
- Costa Rica
- Dominican Republic
- Jordan
- Malaysia
- Mexico
- Morocco
- Panama (has already piloted an out-of-school assessment in PISA-D)
- Peru
- Philippines
- Romania
- Thailand
- Turkey
- Viet Nam

PISA-D out-of-school assessment next steps

3. A short (15-20 minutes) PISA test (based on the instrument used in PISA-D) *integrated* with a multi-topic household survey - may be linked to a future PISA cycle or a completely separate study.
