

## Consumption Tax Trends\* - Australia

### GST rate 2022

The Australian standard GST rate is 10.0%, which is below the OECD average. The average VAT/GST<sup>1</sup> standard rate in the OECD was 19.2% as of 31 December 2022. Australia has an extensive list of goods and services that are GST-free (i.e. subject to a rate of 0% GST). GST was introduced in Australia in 2000 at a standard rate of 10.0% and has remained at this rate throughout.

1. VAT/GST refers to value added tax/goods and services tax

### VAT Revenue Ratio

The VAT Revenue Ratio (VRR) for Australia was 0.51 in 2020, below the OECD average of 0.56. The VRR is a measure of the revenue raising performance of a VAT system. A ratio of 1 would reflect a VAT system that applies a single VAT rate to a comprehensive base of all expenditure on goods and services consumed in an economy - with perfect enforcement of the tax. The Australian VRR increased from 0.47 in 2018 to 0.51 in 2020. The lowest VRR was recorded in the year 2012 at 0.45 and the highest level in 2003 at 0.55.

The figures may not present the difference to the second decimal point accurately due to rounding

## Consumption Tax Trends 2022

*VAT/GST and Excise, core design features and trends Rates, Trends and Policy I*

[oe.cd/vatgst-trends](http://oe.cd/vatgst-trends)

Consumption Tax Trends provides information on Value Added Tax/Goods and Services Tax (VAT/GST) and excise duty rates in OECD member countries.

It also contains information about international aspects of VAT/GST developments and the efficiency of this tax. It describes a range of other consumption taxation provisions on tobacco, alcoholic beverages and motor vehicles.

## International VAT/GST Guidelines

[oe.cd/international-vat-gst-guidelines](http://oe.cd/international-vat-gst-guidelines)

The International VAT/GST Guidelines present a set of internationally agreed standards and recommended approaches to address the issues that arise from the uncoordinated application of national VAT systems in the context of international trade.

They focus in particular on trade in services and intangibles, which poses increasingly important challenges for the design and operation of VAT systems worldwide.

They notably include the recommended principles and mechanisms to address the challenges for the collection of VAT on cross-border sales of digital products that had been identified in the context of the OECD/G20 Project on Base and Erosion and Profit Shifting (the BEPS Project).
