<p><b>Notes:</b></p> <p>Definition of a MAP case and counting of MAP cases      In Nigeria, a MAP case is a case arising from a request made by a person pursuant to the MAP provisions of a tax treaty concerning the taxation of income and capital.</p> <p>Category of cases      In Nigeria an attribution/allocation MAP case is a MAP case where the taxpayer's MAP request relates to (i) the attribution of profits to a permanent establishment; or (ii) the determination of profits between associated enterprises, which is also known as a transfer pricing MAP case.</p> <p>Notes on the computation of average time      In Nigeria, the "start" date is: (i) 1 week from the date of notification by the competent authority that receives the MAP request from the taxpayer or 5 weeks from the receipt of the taxpayer's MAP request, whichever is the earlier date; except(ii) where Nigeria's competent authority receives a MAP request that does not include all the information and documentation required to be furnished pursuant to its published MAP guidance and the competent authority requests such information and/or documentation within 2 months from the receipt of the MAP submission, in which case the "start" date shall be the date under (i) or the date when such missing information and/or documentation is received by that competent authority, whichever is the later date. The "end" date of a MAP case is:(i) the date of an official communication (typically in the form of a letter) from the competent authority to inform the taxpayer of the outcome of its MAP request; or (ii) the date the competent authority receives a notification from the taxpayer on the withdrawal of its MAP request. The average time taken from "start" to "end" of MAP case in Nigeria is calculated by first aggregating the number of months from the "start" date to the "end" date for each case where the "end" date for the case falls within the reporting period. The number of months taken for each case shall be computed as the number of days taken from the "start" date to the "end" date divided by 365 and multiply by 12 (rounded to 2 decimal places).</p>
