

## Logistics Cargo-Handling Services 2022

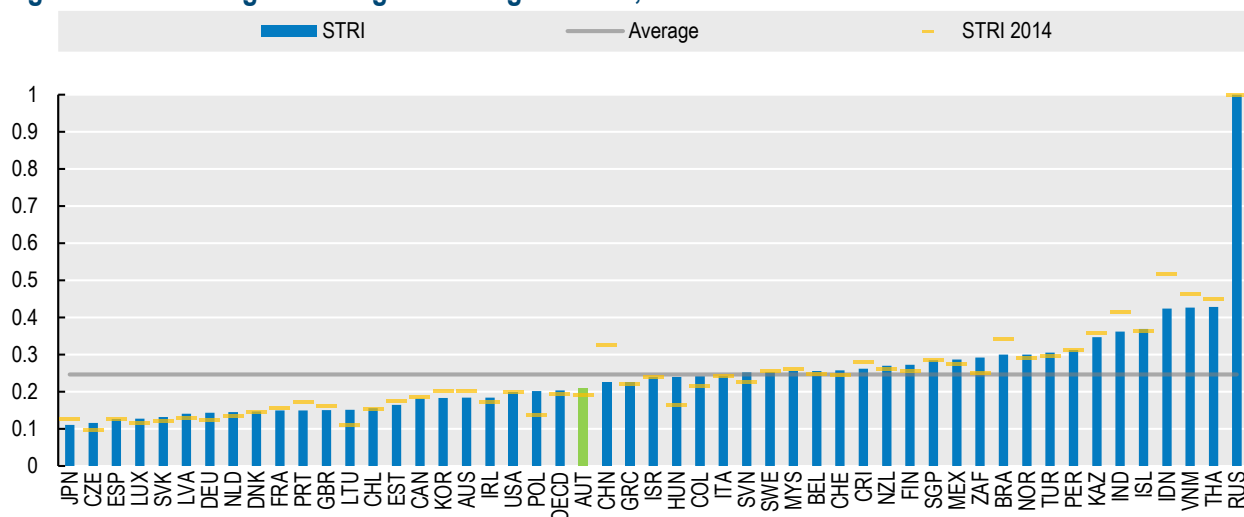

### Key findings

- The average 2022 STRI in the logistics cargo-handling sector is 0.25 out of a maximum of 1 (most trade restrictive) indicating a relatively low overall level of restrictiveness. However, individual country scores diverge considerably, ranging between 0.11 and 1.00.
- The best performing countries in the sector are Japan, the Czech Republic and Spain. Most regulatory changes in 2022 were recorded in Japan, the Czech Republic and Chile.
- Restriction on foreign entry are the main drivers of trade restrictiveness in the sector, with contributions to the total index values amounting to 35% in OECD economies and 49% in non-OECD economies.
- OECD estimates suggest that halving the distance to best practice in this sector is associated with a reduction in the costs of cross-border trade in logistics cargo-handling services between 5% and 13% for the average country included in the STRI database.

Logistics services in the STRI are defined as cargo-handling services (ISIC 5224), storage and warehousing services (including customs warehouse services) (ISIC 5210), freight transport agency services and customs brokerage services (ISIC 5229). Since the regulatory framework for these four sub-sectors can be different in many countries, separate indices are developed for each of them.

The 2022 STRIs in the logistics cargo-handling sector range between 0.11 and 1.00, with a sample average of 0.25 (Figure 1). There are 28 countries below and 22 countries above the average. The best performing countries in the sector are Japan, the Czech Republic and Spain.

**Figure 1. STRI in logistics cargo-handling services, 2022**

Note: The STRI indices take values between zero and one, one being the most restrictive. The indices are based on laws and regulations in force on 31 October 2022. The STRI regulatory database covers the 38 OECD countries, Brazil, China, India, Indonesia, Kazakhstan, Malaysia, Peru, Russian Federation, Singapore, South Africa, Thailand, and Viet Nam. The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights, East Jerusalem and Israeli settlements in the West Bank under the terms of international law.

Several countries introduced regulatory changes affecting the STRIs in 2022 and more so since 2014 (Figure 2). In 2022, the STRIs in this sector saw the biggest changes in the Czech Republic (11%), Chile (11%), Luxembourg (10%), the Slovak Republic (10%), Latvia (9%), and Japan (-19%). Since 2014, on the one hand, we have observed countries that have had the strongest restrictive trends such as Poland (46%), Hungary (46%) and Lithuania (37%). On the other hand, we have strong liberalising trends in Portugal (-13%), Indonesia (-18%), and China (-30%).

**Figure 2. Change since 2014 and change in the last year, by country**

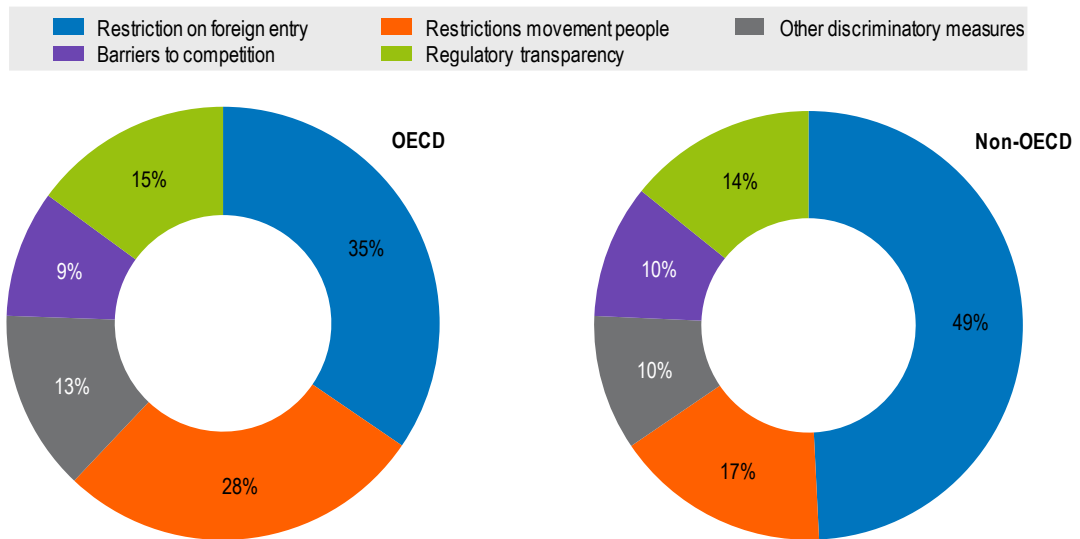

Note: Selection criteria for Panel A was based on largest absolute changes since 2020. Panel B selection is the 3 largest increases, and the 3 largest decreases in the STRI since 2014.

The measures in the STRI database are organised under five policy areas (Figure 3). Restrictions on foreign entry include barriers related to establishing and operating companies such as foreign equity limits or requirements on board of directors and cross-border data flows. Restrictions on the movement of people cover barriers that affect the temporary entry of foreign services providers through quotas, labour market tests and short durations of stay. Other discriminatory measures include discrimination of foreign services suppliers as far as taxes, subsidies and public procurement are concerned. Barriers to competition include information on anti-trust policy, government ownership of major firms and the extent to which government-owned enterprises are exempt from competition laws. Regulatory transparency includes information on consultations and dissemination prior to laws and regulations entering into force. It also records information on obtaining a license or a visa. In this sector, barriers related to restrictions on foreign entry are most prominent and amount to 35% in OECD economies and 49% in non-OECD economies.

The Russian Federation is fully closed to foreign firms in this sector, with their STRI index being at 1.

Table 1 lists the most relevant restrictions identified in each policy area.

**Table 1. Top 5 most relevant measures by policy area, 2022**

Policy area	Measure	Countries having a restriction
Restrictions to foreign entry	Memo: Licence/authorisation is required to enter the market	34
	Acquisition and use of land and real estate by foreigners is restricted	34
	Screening exists without exclusion of economic interests	27
	There are limits to the proportion of shares that can be acquired by foreign investors in publicly-controlled firms	20
	Board of directors: at least one must be resident	18
Restrictions to movement of people	Limitation on duration of stay for contractual services suppliers (months)	37
	Labour market tests or similar economic considerations: contractual services suppliers	37
	Limitation on duration of stay for independent services suppliers (months)	35
	Other restrictions to movement of people	7
Other discriminatory measures	Access to the procurement market is conditional on reciprocity	30
	Public procurement: The procurement process affects the conditions of competition in favour of local firms	24
	Public procurement: Explicit preferences for local suppliers	21
	Memo: The procurement process below the value thresholds affects the conditions of competition in favour of local firms	19
	National standards on transport packages deviate from international standards	3
Barriers to competition	Separation of accounts is required	42
	Cross-subsidisation is prohibited	42
	National, state or provincial government control at least one major firm in the sector	31
	Minimum capital requirements	30
	Restrictions on advertising	6
Regulatory transparency	Visas on arrival or visa exemption are available for temporary entry/transit of crew: truck drivers	39
	Individual licensing/registration requirements are imposed on warehousing, freight forwarding and customs brokerage services	29
	Range of visa processing time	29
	Memo: Applications in electronic format are accepted	29
	A <i>de minimis</i> regime is in place: Import duties	16

Note: Top most relevant measures are selected on the basis of the following criteria: (1) most restricted horizontal measures (i.e. same answer across sectors), (2) most restricted sector-specific measures, (3) key measures or (4) memos affecting the score of other measures through hierarchy rules.
